

AHERA Work Permit – Capital and Construction Services Contractors

All contractor personnel performing maintenance and construction work must complete an AHERA Work Permit form before beginning any work in AHERA buildings on the University of Illinois campus.). F&S Project Managers (PM) and Construction Managers (CM) must:

- Complete **Sections I: General Information, II: Description of Work, and III: Company Information** of the work permit form;
- Provide each company a copy of the current Asbestos Management Plan;
- Require a Responsible Person from each company to complete **Section IV: Company Confirmation of ACMs**; and
- Provide a copy of the completed work permit form to the Division of Safety and Compliance (S&C) at least 5 working days prior to the scheduled project start date.

A copy of the AHERA Work Permit form must be available at the worksite during work activities for review by Uni High, University Primary School, or S&C personnel.

Section I: General Information

Building: Uni High School (0061) Uni High Gym (0063) Kenney Gym/Gm Annex (0021/0005)

Children’s Research Center (0075)-University Primary School portions

Room(s): _____

Scheduled Start Date: _____ Scheduled Finish Date: _____

F&S PM/CM Name: _____ Contact #: _____

Project #/ Name: _____

Section II: Description of Work

Section III: Company Information

Company	Contact	Phone #

Section IV: Company Confirmations of ACMs

- I hereby acknowledge that I was given information including locations and amounts of known or assumed asbestos-containing materials (K/A-ACMs) in the area where work associated with this permit will be performed and I have/will share that information with all of my employees performing work in this building.
- I am aware that we are not to disturb K/A-ACM (including but not limited to removing K/A-ACMs, cleaning up K/A-ACM debris, moving K/A-ACM ceiling tile, picking up K/A-ACM detached floor tile, repairing damaged K/A-ACM pipe insulation, etc.) while working in this building.
- All of my company’s employees working in this building have completed, at a minimum, 2-hour asbestos awareness training. Records are available upon request.
- If ACM is inadvertently disturbed during the course of my company’s work, we will isolate the area and restrict access, shutdown the HVAC system to the area or immediately contact someone who can, and immediately notify the F&S Project Manager or Construction Manager.
